

**IS RECOUNTING,  
REORDERING,  
AND DIGGING  
THROUGH YOUR  
SUPPLIES  
CLOSET  
BECOMING  
A ROUTINE  
CHORE FOR YOU  
OR YOUR STAFF?**

Community health centers, tribal health, rural clinics, and other federally qualified health centers bring much-needed services to underserved communities to address health inequities. Despite their critical place in providing primary care for over 30 million patients, health centers are underfunded, relying heavily on Medicaid reimbursements and operating on tight financial margins.

Those tight margins mean that every expenditure must be justified and necessary, especially new equipment and supplies, which demands accurate, real-time record-keeping and accountability to ensure items are not misplaced, underutilized, or malfunctioning.

### **The Cost of Inefficient Asset Tracking**

- + SUPPLY SHORTAGES** – Theft, missing/misplaced, stockpiling
- + PATIENT SATISFACTION** – Longer wait times, delayed treatment, frustrated personnel
- + MALFUNCTIONS/DAMAGES** – Equipment not adequately maintained/replaced
- + MEDICAL ERRORS** – Mislabeled items or specimens, delayed diagnoses, incorrect or redundant procedures

**TAKING CONTROL OF YOUR SUPPLIES & EQUIPMENT CREATES MORE TIME FOR WHAT MATTERS MOST IN YOUR COMMUNITY—PROVIDING TIMELY, POSITIVE, AND EFFECTIVE CARE FOR ALL.**

# DIGITAL TRACK-AND-TRACE FROM BARCOM & ZEBRA

Barcom and Zebra Technologies have teamed up to make accurate, real-time asset & inventory tracking in community health centers easier than ever.

**transaction**  
Software by BARCOM

Transaction is a mobile app that enables healthcare personnel to scan, log, and update information about critical assets, equipment, specimens, and even patients from anywhere on handheld mobile devices.

- + **UNTETHERED MOBILITY** – Track and trace assets anywhere they (or you) are.
- + **OPERATIONAL VISIBILITY** – Turn real-time data into actionable insights to streamline inventory, optimize workflows, and eliminate errors.
- + **COST EFFICIENCIES** – Improve utilization & extend lifecycles for existing equipment. Prevent theft, losses, and misplaced assets.
- + **IMPROVED PATIENT CARE** – Less time looking for what's lost and more time with what matters.

## Zebra Technologies – Your Mobility Partner

Zebra elevates Barcom's vital technology by supplying your team with reliable, rugged, healthcare-tested mobile computers and tablets with incredible connectivity, long battery life, instant communications, and powerful scanning capabilities.
