

Providing a variety of options so our clients can stay nimble in today's ever-changing environment

## Traditional Leasing

Rather than paying with cash, we offer customized, cost-effective leasing solutions to acquire equipment, software and services.

Preserve cash  
and bank lines

Lower total cost  
of ownership

Life-cycle  
Management

Bundle in needed  
software & services

Flexibility to add or  
delete equipment

## Sale Leaseback

One of the quickest methods to raise working capital is by completing a sale leaseback on equipment you have recently purchased. Leveraging the value in your equipment is a strategic way to procure capital for other business needs.

Sell your recently  
acquired equipment  
to Vantage

Vantage agrees to lease  
equipment back to you without  
interruption of use for an agreed  
upon monthly payment

Vantage cuts you a  
check for the value  
of the equipment

## Other Creative Solutions

Vantage Financial is an independent leasing company and we pride ourselves on providing customized, creative solutions clients can use. Below are just a few examples.

### Deferred Payment Plans

Allowing you to receive  
equipment now and not start  
paying until your next budget  
year begins

### tradeIT

If you have old equipment,  
we will handle the disposition  
through our network of re-  
marketing partners and give  
you credit towards a new lease

### Restructuring of Current Lease

If you have already taken  
advantage of a lease, we can  
rework / restructure it to help  
offset your monthly expenses
